welcoming representatives from Hyosung and Nova Trading

We had the pleasure of welcoming representatives from Hyosung and Nova Trading to discuss future order development. Joining us were Mr. Maciej Pajak, Vice President of Nova Trading; Mr. David Lee, Managing Director of Nova Asia; Mr. Dong Jun Lee, Managing Director of Hyosung (KL Office); Ms. Mandy Chan, Senior Manager of Hyosung (KL Office); Ms. Estherina Lee, Senior Manager of Hyosung (Singapore Office); and Ms. Erica Park, Performance Manager of Hyosung (Korea).

We're pleased to share that the first lot of material has been successfully delivered, and our guests expressed satisfaction with the overall quality. During the visit, they outlined their projections for upcoming orders and shared their interest in exploring additional steel grades such as 316L, 430, 439 and 409.

Given that much of their application involves polishing, they also highlighted some quality considerations, which we take seriously and will address through our continuous quality improvement efforts.

We sincerely thank Hyosung and Nova Trading for their trust and continued partnership. We remain committed to delivering high quality stainless steel solutions to support their future growth.
